PROBLEM STATEMENT

Manual Processing

Disorganized Reports

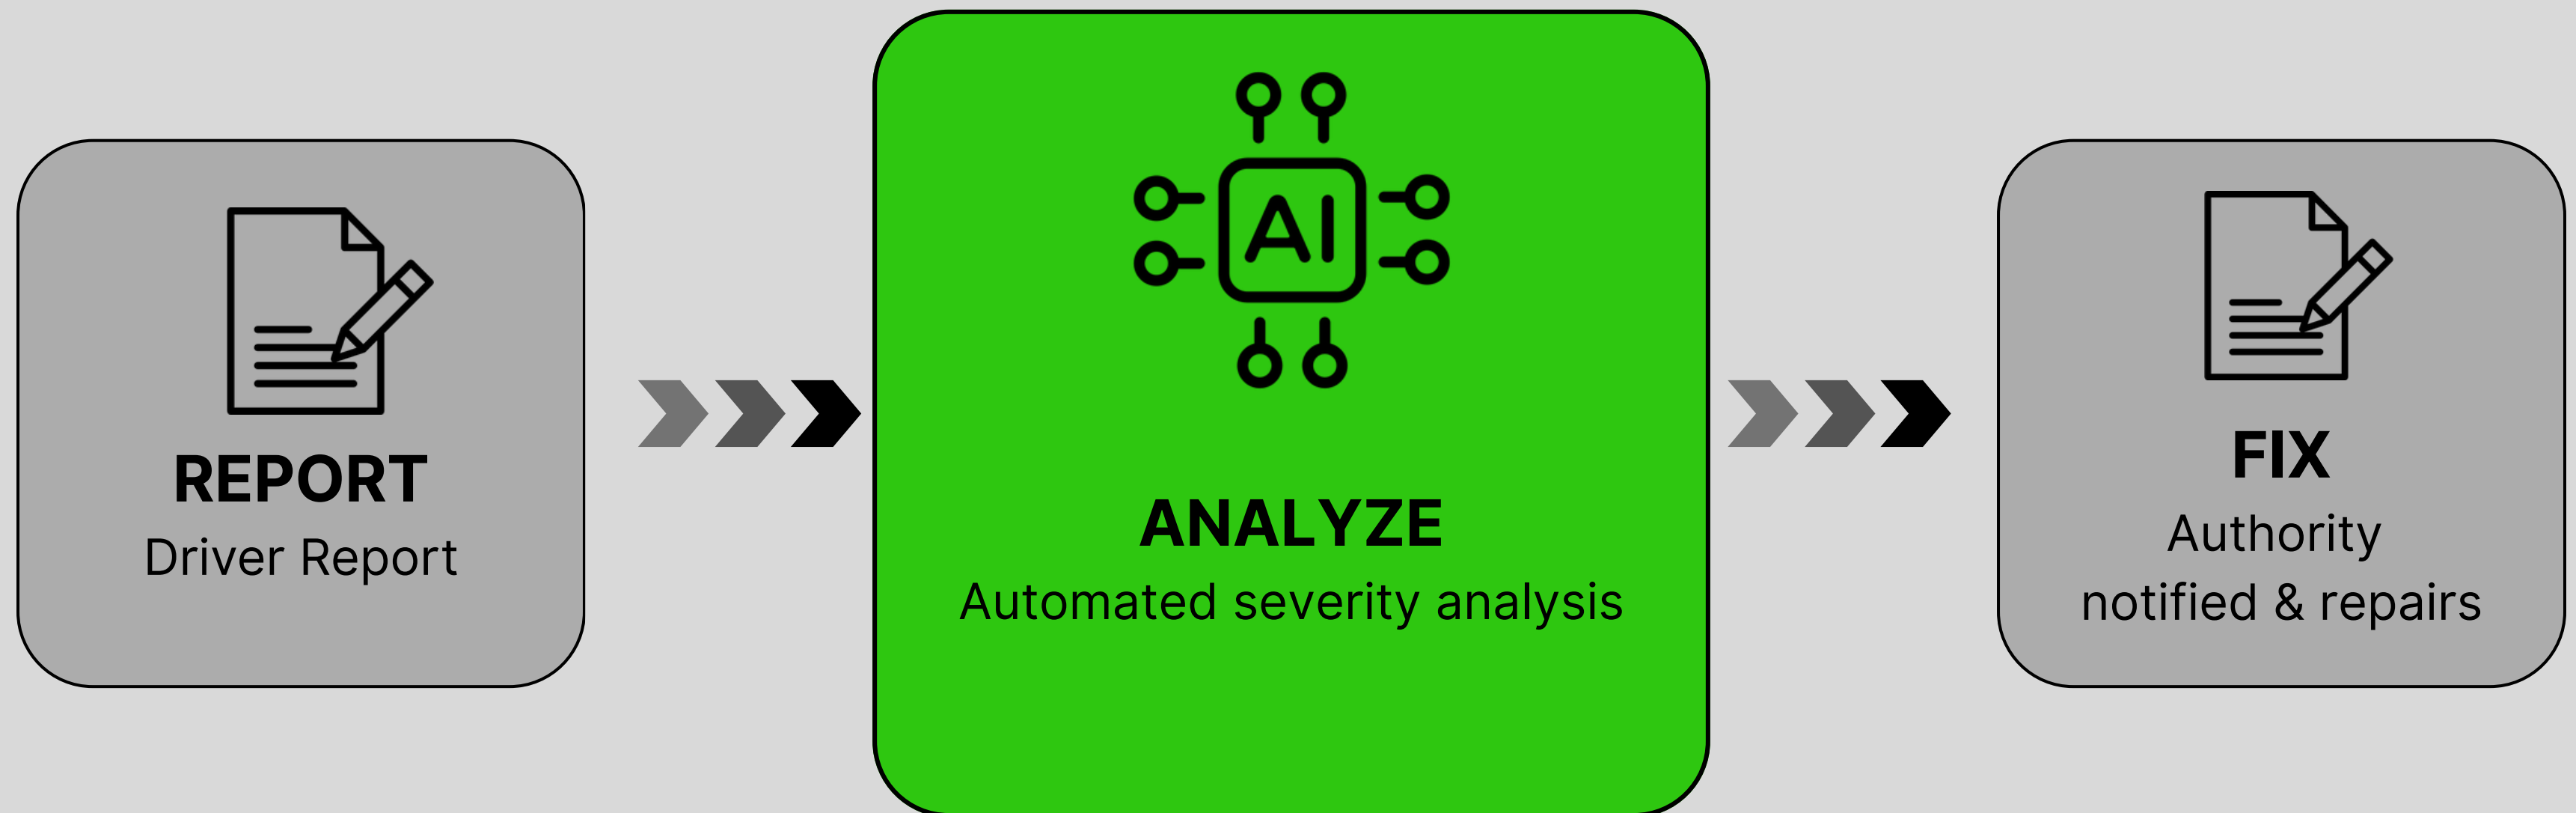

Lack of Intelligent Classification

*From KK to Sandakan,
I smiled while passing Kundasang,
but when I reached Telupid, I felt depressed,
because the road is like the Moon.*

SOLUTION

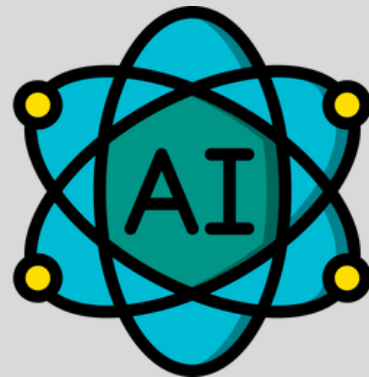

MAIN FEATURE

REPORT & TRACK

NO DOUBLE REPORTING

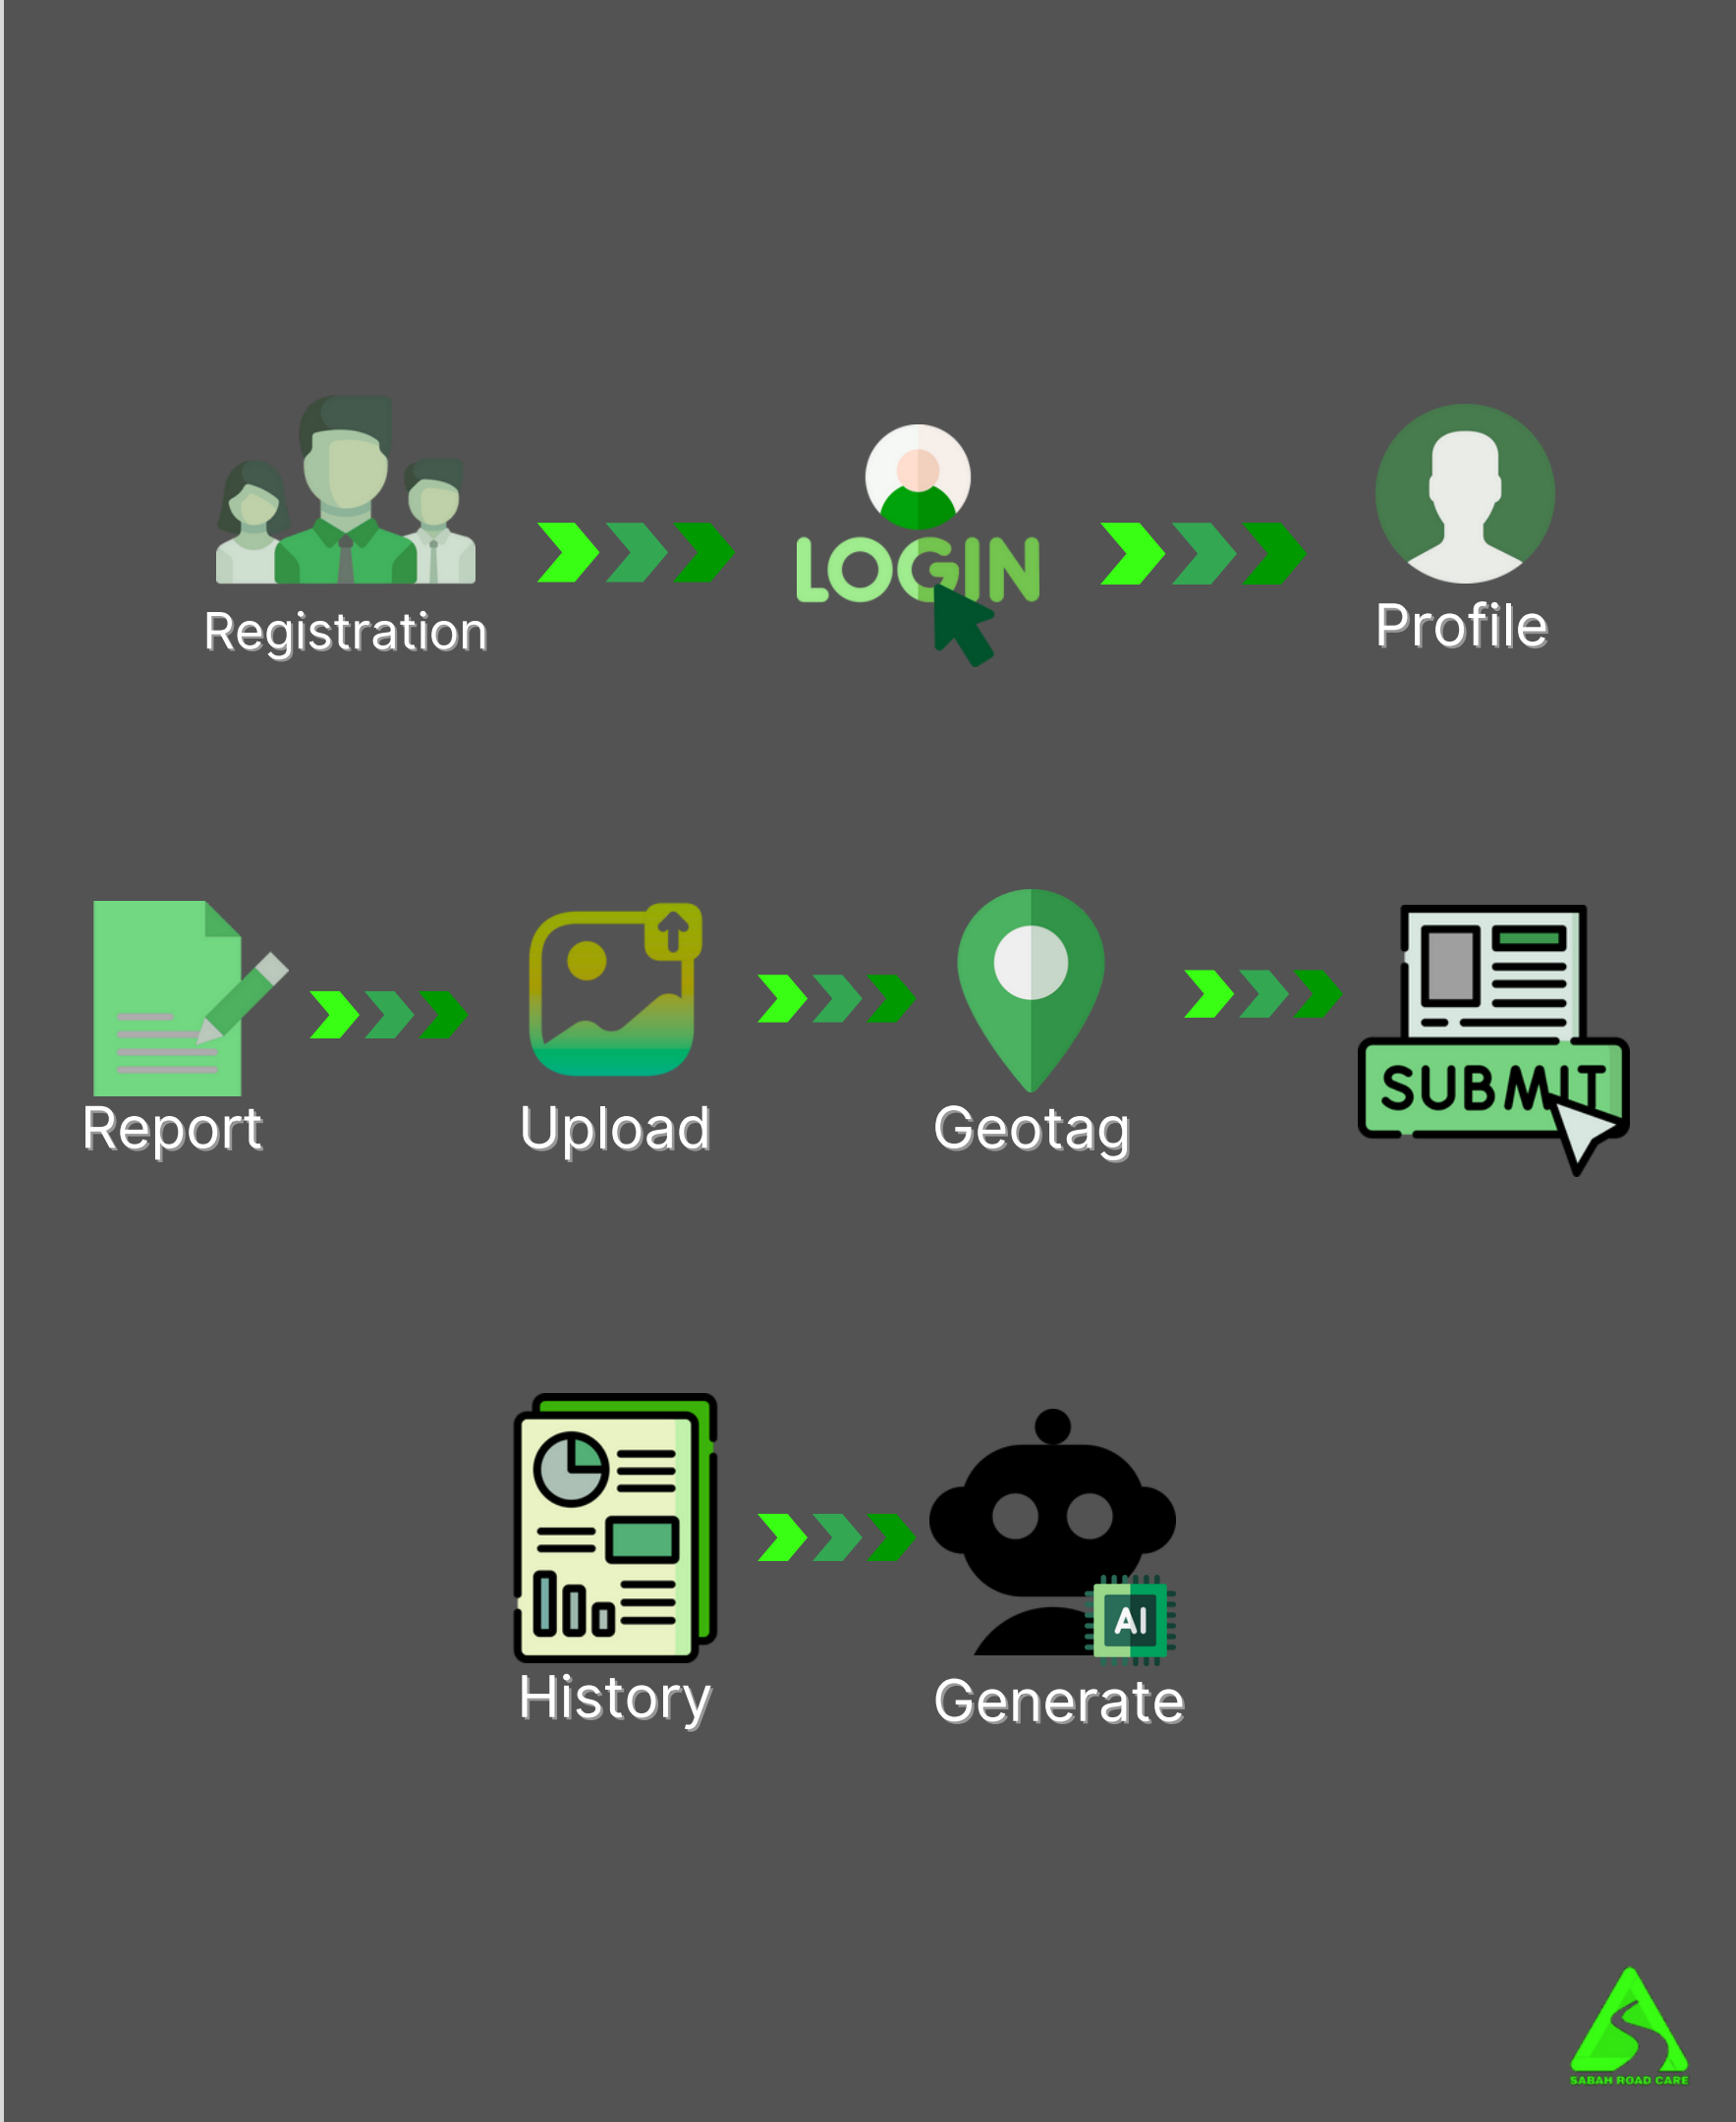

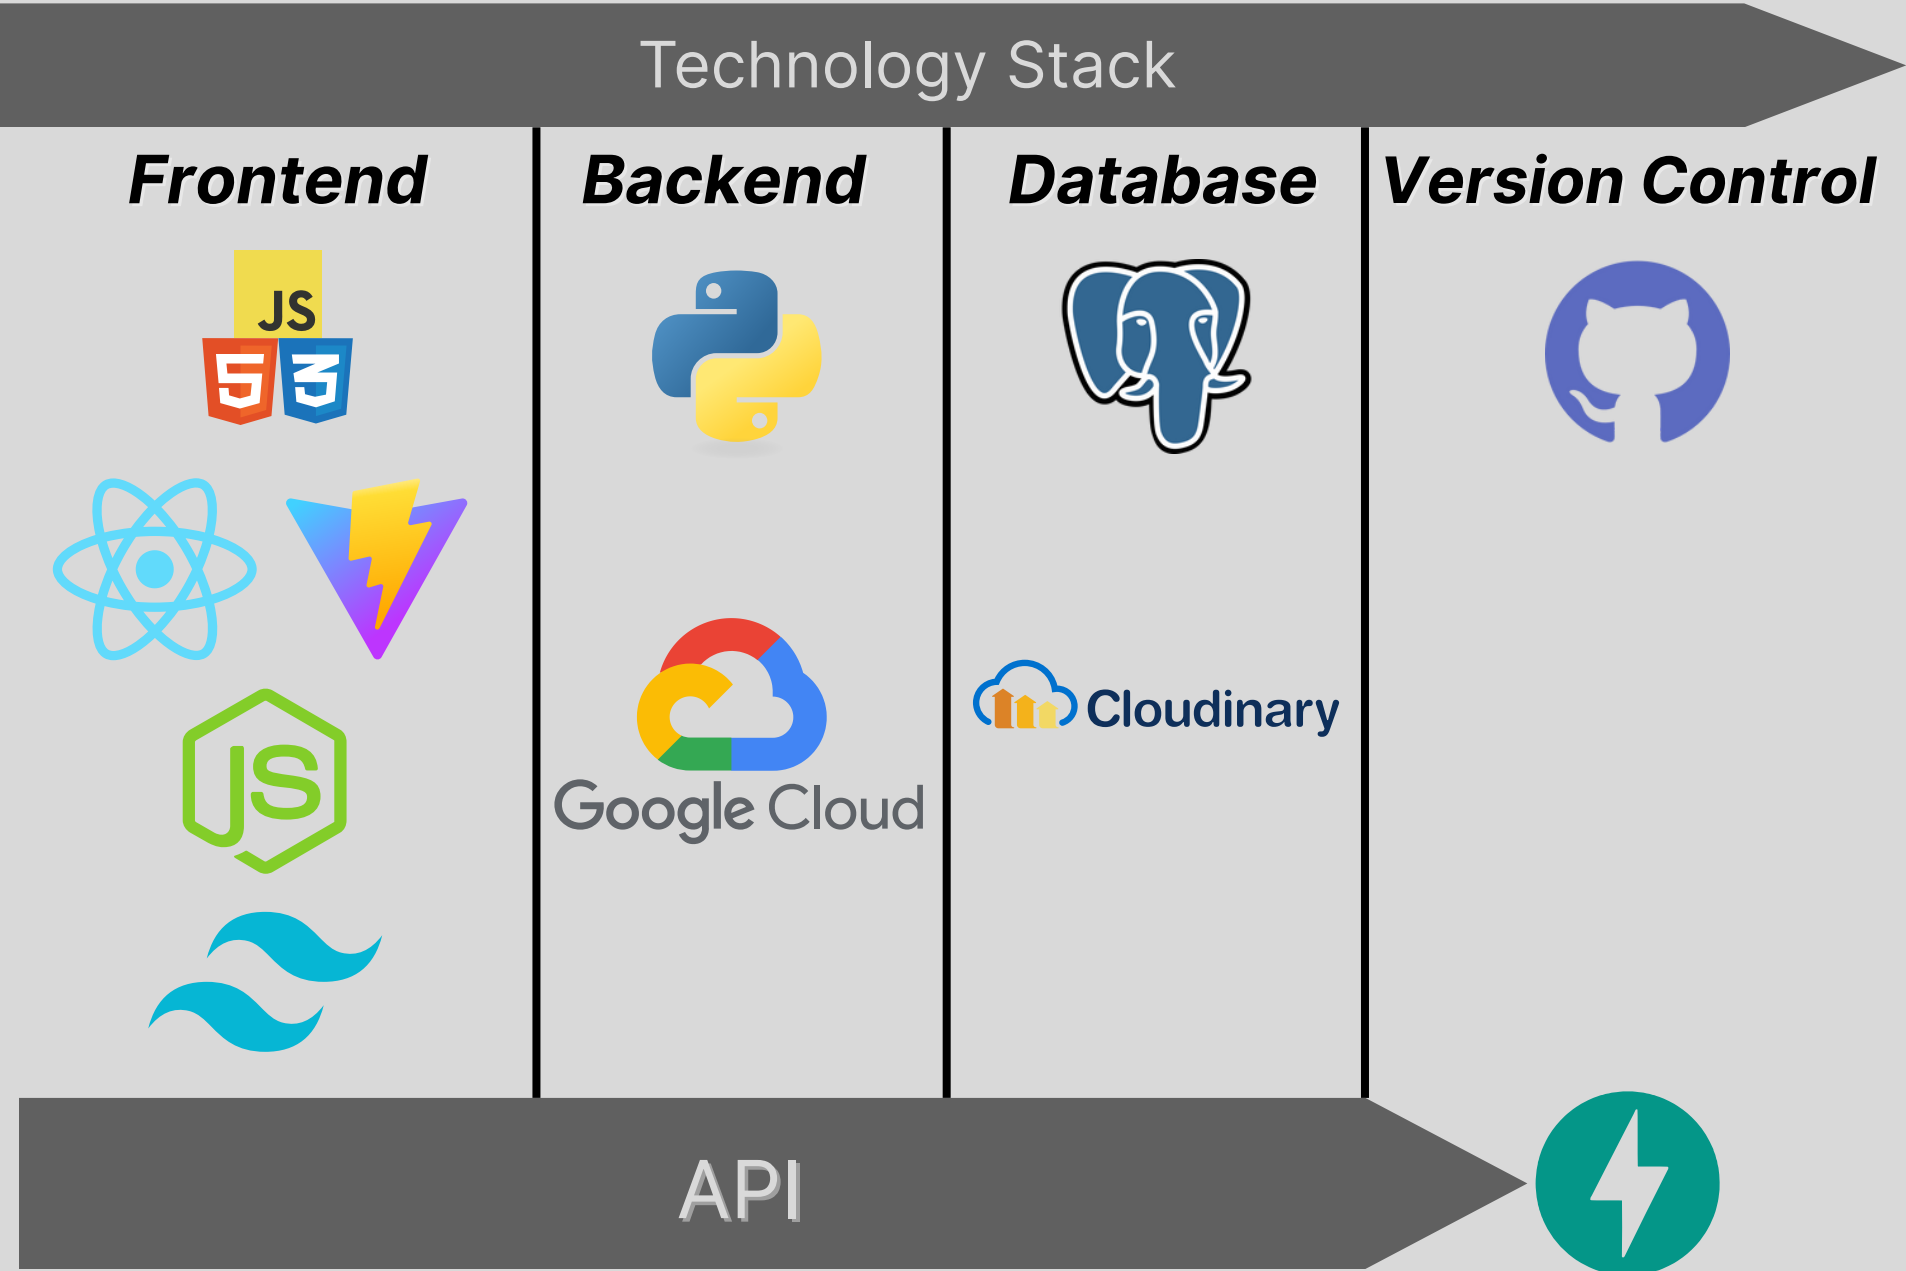

AI SEVERITY CHECK

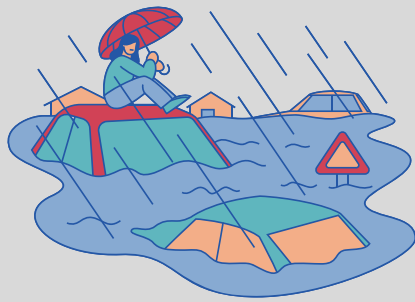

PRIORITY ESCALATION

SYSTEM ARCHITECTURE

FUTURE SCALING

Flood Reporting

- Users report the distance of the flood.
- Record flood severity by water height compared to car's height.

Landslide Reporting

- Users report landslide that happened.
- Record if one or both lanes are closed.

Mobile App Development

- A mobile-friendly platform for road users.
